

Brandye Smith-Goettler is a senior analytical chemist within the manufacturing division at Merck in West Point, PA. She received undergraduate degrees in Chemistry and Biochemistry at East Carolina University in 1995, her M.S. in Chemometrics at ECU in 1997 and her Ph.D. in Analytical Chemistry at North Carolina State University in 2003. Brandye's graduate studies focused on chemometrics and process analytical chemistry under the direction of Professor Paul Gemperline and infrared spectroscopy to characterize biologicals under the direction of Professor Stefan Franzen, respectively. During and after graduate school, she has worked in the scientific software development, biotechnology and pharmaceutical industries.

She is a current member of the Coblenz Society; serving as delegate to the Eastern Analytical Symposium governing board and a delegate to the Federation of Analytical Chemistry and Spectroscopic Sciences governing board 2007-2009. She is a current member of the Society of Applied Spectroscopy and served as Parliamentarian on the Executive Committee in 2006 and 2007. Brandye has been an active participant in FACSS, organizing process sessions and serving as workshop chair-elect in 2007 and workshop chair 2008 and 2009.
